

```
testing::internal::  
PairMatchBase< Gt2Matcher,  
AnyGt >
```

A diagram illustrating a class hierarchy. At the bottom is a gray box containing the text 'testing::internal:: Gt2Matcher'. A blue arrow points vertically upwards from this box to a white box above it. The white box contains the text 'testing::internal:: PairMatchBase< Gt2Matcher, AnyGt >'. This represents that Gt2Matcher inherits from PairMatchBase.

```
testing::internal::  
Gt2Matcher
```
